

GOVERNANCE OF HEALTHCARE QUALITY TOOL

A facilitated analysis of the governance and leadership structures, processes and dynamics that influence the effective oversight of the quality of care in your organisation

The process uses multiple forms of analysis to ensure a comprehensive understanding of the complexity and nuances of governance and leadership of healthcare quality in your organisation.

Through survey, document review, interviews with key staff including senior management, senior clinicians and committee/council members and observation of relevant committee/councils a plan is formulated to provide a sound basis for strengthening the governance and leadership of healthcare quality in your organisation.

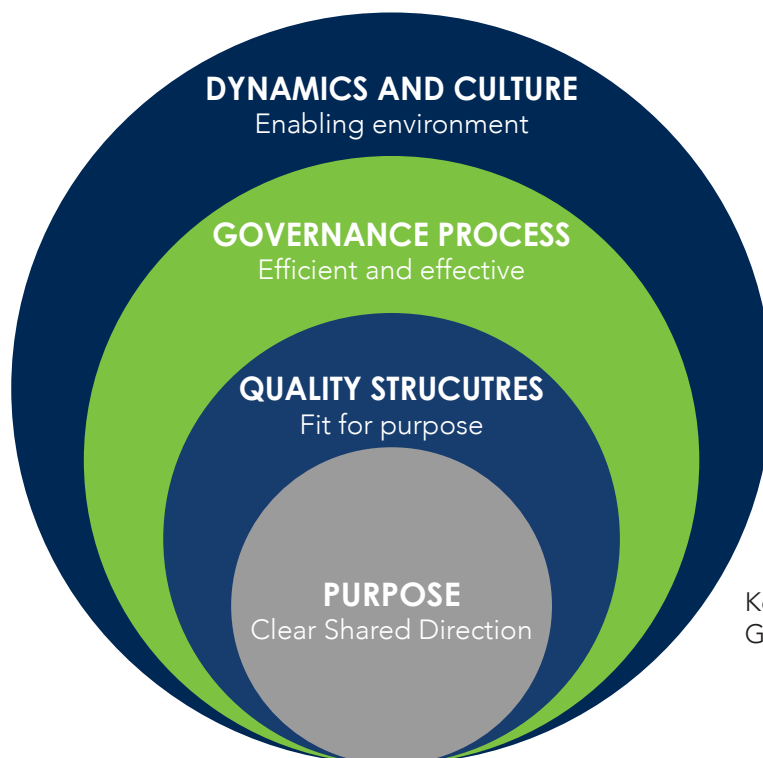

ABOUT THE TOOL

The tool enables healthcare organisations to analyse and address:

- **Strategic Oversight** – Is strategy and planning driving the delivery of quality healthcare and improvement?
- **Governance Resources and Capability** – Do key participants have access to the technical and physical resources to undertake effective oversight of quality?
- **Governance Structures and Processes** – Do committee structures and processes and lines of accountability support effective governance of healthcare quality?
- **Quality data** – Do comprehensive, timely reporting frameworks, risk assessment and robust data sources support the effective leadership and governance of improvement initiatives?
- **Dynamics** – Do the key players in healthcare quality at your organisation maximise current knowledge of communication, decision making and teamwork practices?

OUTCOMES

- A detailed analysis of the performance of your governance and leadership of quality, capturing and presenting the different perspectives of senior management, senior clinicians and committee members
- A road map of future action for improvement and strengthening governance and leadership
- Establishment of a clear purpose and direction for the governance of quality
- Provides expert support as you go through the process from our experienced facilitators
- Links you into a network of support and resources designed specifically to drive clinical governance, including executive coaching, mentoring, leadership development, industry sites visits and similar.

Key elements of the
Governance of Healthcare Quality Tool
